

Man Rider® and *Personnel Lifting Winches*

Dedicated 150 kg (330 lb)

Dual Purpose 920-5,000 kg (2,035-11,000 lb)

FYNS KRAN UDSTYR A/S

When Tough Just Isn't Enough

Dedicated 150 kg (330 lb) and Dual Purpose 920-5,000 kg (2,035-11,000 lb) Air Winches

Since 1924, Ingersoll Rand has built extremely durable and reliable winches and hoists. Designed to work in harsh environments and built using rugged cast iron and steel, Ingersoll Rand doesn't take shortcuts and never uses inferior components. Ingersoll Rand Man Rider® and dual purpose winches are specifically designed to minimize the risks of lifting people. They meet strict safe-lifting standards and include features to help ensure the safety of workers. Ingersoll Rand pioneered the development of Man Rider® and dual purpose winches and has provided thousands of them over 30 years. This experience is built into every Man Rider® winch we sell. Trust Ingersoll Rand Man Rider® and dual purpose winches to help you protect your most precious asset, your people.

Ingersoll Rand Man Rider® and Dual Purpose Lifting Winches:

- Multiple safety systems to help keep your personnel safe
- Rugged cast iron and steel construction for extreme durability
- Stainless steel components and marine grade paint for corrosion resistance
- Variable speed levers for precise control and built-in safety
- Easy configuration to meet worldwide standards and 3rd party type approvals
- Individual load testing before shipment with manufacturer's test certificate
- 30 years of experience designing and building thousands of Man Rider® winches that operate in the world's toughest environments
- High quality manufacturing in ISO 9001 level advanced facilities

Special Orders

A significant portion of our business is providing customized solutions for specific applications. We recognize that not all jobs are created equal and that the most cost-effective solutions may not be in an off-the-shelf item. We've designed and manufactured winches and hoists for applications as simple as moving bags of lettuce, to as intricate as installing critical payloads on space vehicles, including high capacity loads 100 tons and above.

- Design for custom capacities
- Custom control systems
- Custom product modifications
- Witness testing and complete certification to most global standards
- Full data package with CAD drawings
- Dedicated project management for your project from conception to delivery
- Onsite services available including presale and evaluation

MR150 Dedicated Man Rider® Air Winch

150 kg (330 lb)

Ingersoll Rand MR150 Man Rider® winches are specifically designed to minimize the risks of lifting people. MR150 winches combine our decades of experience building personnel lifting winches with the best features of our time-proven designs into one premium Man Rider winch. MR150 winches meet or exceed strict safe-lifting standards to help ensure the safety of workers. Trust Ingersoll Rand MR150 Man Rider winches to help you protect your people.

Ideal for:

Offshore

Onshore

Marine

General Performance and Characteristics at 90 psi (6.2 bar) inlet pressure								
Motor Type	Rated Capacity at Top Layer		Line Speed m/min (fpm)	Max. Rope Storage Capacity	Working Rope Storage Capacity	Drum Length mm (in)	Air Consumption with Rated Load m ³ /min (ft ³ /min)	Net Weight kg (lb)
	2nd Layer kg (lb)	5 layers (w/10 mm rope) m (ft)		2nd Layer (w/10 mm rope) m (ft)				
MR150K Gear Air Motor	150 (330)	180 (591)	30 (98)	180 (591)	55 (180)	300 (11.8)	2.5 (88)	210 (465)

⁽¹⁾ Wire rope is tightly wound with no freeboard.

LS2-150 Hydraulic Offshore Man Rider®

150 kg (330 lb)

The Ingersoll Rand LS2-150 Hydraulic Offshore Man Rider® features a tough, full-stainless steel enclosure that protects moving parts and marine grade paint to stand up to the harsh environments found offshore.

Ideal for:

Offshore

Onshore

Marine

Lifting Ratings at 10:1 design factor and performance at 105 bar (1,800 psi) inlet pressure									
Model	Line Pull Capacity			Lifting Speed at Top Layer	Operating Pressure	Max Flow with Rated Load	Max Drum Capacity	Rope Diameter	Net Weight
	First Layer kg (lb)	Mid Drum kg (lb)	Top Layer kg (lb)	m/min (f/fpm)	bar (psi)	l/min (gal/min)	m (ft)	mm (in)	kg (lb)

LS2-150 Hydraulic Land Rig Man Rider®

150 kg (330 lb)

The Ingersoll Rand LS2-150 Hydraulic Land Rig Man Rider® is designed as a cost-effective solution for lifting people on land rigs. It's built-in safety features and rugged construction make this a durable winch no matter where your land rig operates.

Ideal for:

Offshore

Onshore

Marine

Lifting Ratings at 10:1 design factor and performance at 105 bar (1,800 psi) inlet pressure									
Model	Line Pull Capacity			Lifting Speed at Top Layer	Operating Pressure	Max Flow with Rated Load	Max Drum Capacity	Rope Diameter	Net Weight
	First Layer kg (lb)	Mid Drum kg (lb)	Top Layer kg (lb)	m/min (f/fpm)	bar (psi)	l/min (gal/min)	m (ft)	mm (in)	kg (lb)

Infinity Dual Purpose Air Winches

1,445-5,000 kg (3,180-11,000 lb)

Ingersoll Rand Dual Purpose winches are designed to maximize the use of your equipment. They combine the time-tested, rugged durability of our standard Infinity winches with enhanced safety features for lifting personnel. In environments where dedicated Man Rider® winches are not required, Ingersoll Rand Dual Purpose winches offer you the versatility to lift people and material with one winch. Often copied, but never equaled, count on Ingersoll Rand Dual Purpose winches to get the job done.

Ideal for:

Onshore

Offshore

Marine

Personnel Lifting Ratings at 8:1 design factor and performance at 6.3 bar (90 psi) at air inlet when winch is operating

Model	Rated Capacity at Top Layer	Lifting Speed at Top Layer	Air Consumption with Rated Load	Air Volume Needed to Move Rated Load at Top Layer	Sound Level as per EN 14492-1	Drum Capacity ⁽¹⁾		Net Weight
	kg (lb)	m/min (fpm)	m ³ /min (ft ³)	3 m (10 ft)		Length m (ft)	Rope Diameter mm (in)

⁽¹⁾ Wire rope is tightly wound with no freeboard.

Third Generation Dual Purpose Air Winches

920-3,600 kg (2,035-8,000 lb)

Ingersoll Rand Dual Purpose winches are designed to maximize the use of your equipment. They combine the time-tested, rugged durability of our standard Third Generation winches with enhanced safety features for lifting personnel. In environments where dedicated Man Rider® winches are not required, Ingersoll Rand Dual Purpose winches offer you the versatility to lift people and material with one winch. Often copied, but never equaled, count on Ingersoll Rand Dual Purpose winches to get the job done.

Lift-to-Shift variable speed lever provides precise control and built-in safety

Radial piston air motor provides reliable power with adjustable speed for any application

Drum guard included for additional protection

18:1 drum to wire rope diameter minimizes unnecessary wear and increases the life of wire rope

Ideal for:

Onshore

Offshore

Marine

Gearbox-in-drum design reduces size and helps the winch fit in compact applications

Liftstar Dedicated Man Rider® Hydraulic Winches

150 kg (330 lb)

LS2-150 Hydraulic Offshore Man Rider®

The Ingersoll Rand LS2-150 Hydraulic Offshore Man Rider® features a tough, full-stainless steel enclosure that protects moving parts and marine grade paint to stand up to the harsh environments found offshore.

Emergency stop and built-in overload device for safe operation

Slack Line Prevention System automatically stops the winch from paying out in case of slack wire

Upper and lower limit switches to limit rider travel

Automatic Multi-Disc Brake and Automatic Drum Brake provide the safety of two independent braking systems

Helical grooved drum ensures better rope spooling than plain drum

Chassis skid incorporates a drip pan for offshore application

Built in emergency lowering and lifting device

Stainless Steel enclosure protects parts and provides superior corrosion resistance for offshore environments.

Press Roller presses the wire rope onto the drum to improve winding, especially in no-load conditions

Ideal for:

Offshore

Onshore

Marine

LS2-150 Hydraulic Land Rig Man Rider®

The Ingersoll Rand LS2-150 Hydraulic Land Rig Man Rider® is designed as a cost-effective solution for lifting people on land rigs. It's built-in safety features and rugged construction make this a durable winch no matter where your land rig operates.

Slack Line Prevention System automatically stops the winch from paying out in case of slack wire

Two automatic brakes for maximum rider protection and safety

Helical Grooved Drum assists with wire rope spooling

Press Roller presses the wire rope onto the drum to improve winding, especially in no-load conditions
