

SUSPENDED LOADS SAFELY GUIDE AND POSITION

Safe-T-Stik

Is Your Workload Weighing You Down?
Let LHR Give You A Hand!

Safety Is Our Business

The Safe-T-Stik is a rigid magnetic no-touch load control safety tool. It enables workers to safely guide and position suspended loads such as road plates, trench plates, shoring, trench boxes, beams, large tubulars, track-out plates, shaker grates, large motors, large assemblies and other heavy steel components.

Specially Designed

The Safe-T-Stik is specially designed to keep employees safe by keeping their hands, feet and body away from dangerous crush and pinch points.

Safe-T-Stik magnetic load control tools are versatile and can be attached and removed quickly and easily. With over 500 pounds of magnetic holding power, even the heaviest loads can be maneuvered and positioned with incredible precision and minimal human force.
